

NEWPORT NEWS PASSES COLLECTIVE BARGAINING!

On July 14, Newport News City Council passed a comprehensive collective bargaining ordinance into law! UE has been fighting for four years to get here, and this is a historical development that we should celebrate!

While the ordinance does not go into effect until 2028, we must organize to build a strong union now! We can fight back and win changes on the job today!

Workers in Human Services continue to face understaffing and stressful working conditions. Everyone should be paid a living wage. UE won \$25/hr minimum wage in 2 NC cities. Let's unite and build the union!
