

PORTSMOUTH CITY WORKERS UNION

CITY WORKERS WIN COLLECTIVE BARGAINING! *SIGN A UNION CARD TODAY!*

UE members (pictured on right), who are Portsmouth city workers, alongside firefighters and Council members celebrating the victory at City Hall on Sept. 22.

On September 22, Portsmouth City Council passed a comprehensive collective bargaining ordinance into law! We have been organizing, as members of UE, in coalition with the IAFF fire union, for three years to get here, and this is a historical development that we should celebrate! **The expansion of workers' rights goes into effect immediately!**

Every city worker has a role to play in building our power. Whether you work in Human Services, Public Works, Engineering, Libraries, Parks and Recreation, Utilities, or another

department, now is the time to get involved. The stronger our workplace committees become over the next few months, the stronger our voice will be when collective bargaining begins.

Every department has issues, and every department deserves a voice. Collective bargaining allows workers to address those issues together, but only if workers continue organizing now. Join UE today!
